In November 2008, we issued our report on the results of our audit of the Internal Revenue Services (IRS) financial statements as of, and for the fiscal years ending, September 30, 2008, and 2007, and on the effectiveness of its internal controls as of September 30, 2008. We also reported our conclusions on IRSs compliance with significant provisions of selected laws and regulations and on whether IRSs financial management systems substantially comply with the requirements of the Federal Financial Management Improvement Act of 1996 (FFMIA). Additionally, in January 2009, we issued a report on information security issues identified during our fiscal year 2008 audit, along with associated recommendations. The purpose of this report is to discuss issues identified during our audit of IRSs financial statements as of, and for the fiscal year ending, September 30, 2008, regarding internal controls that could be improved for which we currently do not have a specific recommendation outstanding. Although not all of these issues were discussed in our report on the results of our fiscal year 2008 financial statement audit, they all warrant IRS managements attention. This item ships from La Vergne, TN. Paperback.
