

## Chemistry of the Ionosphere

Filesize: 2.2 MB

### ***Reviews***

*The publication is not difficult in study preferable to fully grasp. It really is rally intriguing throug  
looking at period of time. I found out this pdf from my dad and i advised this ebook to find out.

## CHEMISTRY OF THE IONOSPHERE

DOWNLOAD

Book Condition: New. Publisher/Verlag: Springer, Berlin | I was very happy to learn that Plenum Press has decided to publish an English edition of Chemistry of the Ionosphere. Although the book was largely intended for the Soviet reader in order to fill some gaps in Russian-language reviews on aeronomic problems, I hope that it may be useful to foreign specialists engaged in ionospheric research as well. Naturally, during the time which has elapsed since the preparation of the Russian edition new studies have been published in the world literature on the problems dealt with in this book. The most important of these are noted in the appendix to this edition, but some problems (for example, with respect to the physics of negative ions in the lower ionosphere) require a radical reexamination, which cannot be done in a brief appendix. I will be pleased if publication of the book in English will assist in removing some of the currently existing ambiguities in basic problems of upper atmosphere chemistry. A. D. Danilov Preface to the Russian Edition 1 In the last decade surprising successes have been achieved in the study of the earth's upper atmosphere by use of rockets and artificial satellites. These investigations have made it clear that the upper atmosphere (and particularly the ionospheric region at altitudes 100-1000 km) is a considerably more complex formation than could be visualized prior to the advent of active studies with space vehicles. | 1. Results of Rocket Investigations of Parameters of the Upper Atmosphere.- 1.1. Atmospheric Density, Temperature, and Neutral Composition.- 1.2. Electron Concentration.- 1.3. Concentrations of Positive and Negative Ions.- 1.4. Intensity of Solar UV Radiation.- 2. General Outline of Elementary Processes in the Ionosphere.- 2.1. Recombination of Electrons and Positive Ions.- 2.2. Ionization of Neutral Particles.- 2.3. Ion-Molecular...
