TRIPPING OVER THE TRUTH: THE RETURN OF THE METABOLIC THEORY OF CANCER ILLUMINATES A NEW AND HOPEFUL PATH TO A CURE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.A masterful synchronization of history and cutting-edge science shines new light on humanities darkest diagnosis. In the wake of the Cancer Genome Atlas project s failure to provide a legible roadmap to a cure for cancer, science writer Travis Christofferson illuminates a promising blend of old and new perspectives on the disease. Tripping over the Truth follows the story of cancers proposed metabolic origin from the vaunted halls of the German scientific golden age, to modern laboratories around the world. The reader is taken on a journey through time and science that results in an unlikely connecting of the dots with profound therapeutic implications. Transporting us on a rich narrative of humanities struggle to understand the cellular events that conspire to form malignancy, it reads like a detective novel, full of twists and cover-ups, blind-alleys and striking moments of discovery by men and women with uncommon vision, grit and fortitude. Ultimately we arrive at a conclusion that challenges everything we thought we knew about the disease, suggesting the reason for the failed war against cancer stems from a flawed paradigm that categorizes cancer as an exclusively genetic disease. For anyone affected by this terrifying disease, and the physicians who struggle to treat it, Tripping Over the Truth provides a fresh and hopeful perspective. It explores the new and exciting non-toxic therapies born from the emerging metabolic theory of cancer. Therapies that may one day prove to be a turning point in the struggle against our ancient enemy. We are shown how the metabolic theory redraws the battle-map, directing researchers to approach cancer treatment from a different angle, framing it more like a gentle rehabilitation rather...
