And this weekend promises to be special, as she and her boyfriend, Julian, will be spending time together at his parents house in the country. Nothing could be more romantic and perfect. Except that the journey there goes horribly awry, and Eva s dream weekend turns into a total nightmare. After bearing witness to a terrible crime and narrowly escaping the scene, Eva loses her diary, an incredibly personal book that holds all of her secrets including details of her visits to a therapist. So when she meets a helpful stranger who seems to know a great deal about her, she has to wonder if he is a kindred spirit or something darker. Vertigo spins a psychologically intense tale of when to walk away and when to run.

*The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).*
