Reviews

Very good e book and helpful one. it was writtern quite properly and helpful. I am quickly could possibly get a enjoyment of looking at a composed book.

(Connor Lowe IV)

PRODUCTS AND RESOURCES OF ARKANSAS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Products and Resources of Arkansas It is bounded on the north by the State of Missouri, on parallel of 36 deg. 30 min.; east by the Mississippi river and State of Missouri; south by the States of Louisiana and Texas, and west by the Indian territory and State of Texas. Besides the Mississippi river, which forms almost its entire eastern boundary, the State is traversed by many other navigable streams, the principal of which are the Arkansas, White, Ouachita, St. Francis, Black, Bartholomew, Little Red, and many others, furnishing thousands of miles of water-ways for the transportation of the products of the State, perpetually insuring against excessive freight charges. Topography. The lands of the State may be divided into three grand divisions - the mountainous, the rolling or hilly, and the level. The mountainous comprises about one-fourth or about 8,000,000 acres; the rolling or hilly one-half, or about 16,000,000 acres, and the level one-fourth, or about 8,000,000 acres. The mountainous lands are situate in the western and northern parts of the State. The mountains north of the Arkansas river are to be found in the counties of Crawford, Washington, Franklin, Madison, Johnson, Newton, Pope, Scarcy, Van Buren, Cleburne, Carroll, Boone, Marion, Baxter, Izard, Fulton, Independence, Stone, Sharp and Randolph. These mountains are spurs of the Ozark, extending from the line of Missouri in Randolph county in a southwesterly direction to the Indian Territory, and rarely attain the height of 1,400 feet. There is a very marked difference in the character of the timber, soil and formation, between the north and south side of this range of mountains. On the south side the formation is sandstone,...
